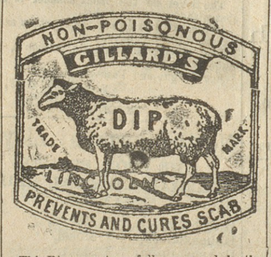
GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. John J. Mahon, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. James M. Thomas, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, Junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

LUXOR
KEROSENE OIL
This celebrated brand of Kerosene, manufactured by the Chesebrough Manufacturing Company (the manufacturers of Vaseline) is without doubt the best in this Market. It is perfectly pure, gives a brilliant light, and is absolutely free from that disagreeable odour most kerosene has.
It will last ONE THIRD LONGER than any Kerosene Oil in this market, and the fire test being 150°, it cannot explode the lamps, and endanger, life as the yellow and cheap kerosene is likely to do at any moment! Send for free samples and test it.

Valvoline.
No thoughtful, or careful engineer or owner of good machinery, can afford to remain ignorant or indifferent to the qualities of this celebrated lubricator. Its value can only be known by those who have properly used it. It is true the first cost is higher than common animal or vegetable oil, but it will last ONE THIRD LONGER and preserves machinery while other oils injure and corrode by the acid they contain, so that this oil is CHEAPER than any lubricator known.
Those who are wise will give it a fair trial. Samples will be furnished gratis.

MONTEVIDEO.

The new Government has begun well, and every one thinks that the Banda Oriental is in for happier days and brighter prospects. The people here only ask of President Santos two things: First, protection for life and property; second, the scouring of the Departments of robbers, 'matreros' and assassins. Colonel Latorre won his great fame by his admirable attention to these points during his reign. A cow or a sheep on an estancia, even on the frontier, was as safe as a Foreign Minister in the Hotel Oriental. Latorre put down crime in the camp by simply abolishing the sending of criminals to town for trial: constitutional trial was abolished and crime was at once repressed. After his epoch crime in the Oriental camp again raised its head. Some of the finest properties in the B. Oriental were desolated by the 'matreros;' people who could afford it left the camp and came to reside in the towns and city, and estancia property dropped fully 30 per cent. in a single half year. The new Government has now entered office: the people, somehow, have confidence that General Santos, bred in the Latorre school, will re-establish the Latorre camp rule, Men, and representative men, who visit the General tell him what the country wants, and it is my belief that he will carry out the programme, look after the camp and its great interests, and let the city look after itself.

Dr. Terra, the Prime Minister, is a very popular man, as also Dr. Herrera y Obes, who served a long apprenticeship in the Government House, and is considered one of the best statesmen here. He was Minister more than a quarter of a century ago, when Mr. Charles M'Lean came down here to take charge of Nicholson Green and Co.'s house.

There was some apprehension here yesterday, due to a rumour that the Custom House was no longer to pay in its receipts for the service of the public debts, but to pay them to the Treasury. I am happy to say that the rumour was without the least foundation, and the present arrangement will not be disturbed. The new Government enters office with a heavy deficit of over a million, but it is really a wonder to me what becomes of all the money. The harbour is crowded with shipping, the smoke is curling gracefully from scores of tall chimneys on the Cerro, and every appearance of thriving commerce and flourishing trade: the people are taxed up to the eyes and money is rolling into the country from every quarter. The Canova brought yesterday £10,000 sterling.

The Orientales want sadly a Gladstone to make both ends meet, or, better still, let them ask General Roca for a loan of Dr. Plaza for six months, and he will put matters straight. However, there is no disguising the fact, things are on the mend down here, public stocks are improving and trade is brisk. Talking of trade, I find the most surprising changes: nearly all the shopkeepers have become importers 'on their own hook.' If you look over the steamers' manifests, you will be astonished to see the number of importers in this place. The aristocracy of trade is abolished—the good old days, when fourteen or fifteen good English houses ruled the import market are gone: shoemakers, watchmakers, 'tenderos', even the tailors, are now their own importers; and if poor M'Carthy, the tailor of happy, social memory, was to come to life, he would hardly recognise what was once his 'gremio.' I have walked all over the city to have a look at these new import houses and discover the causes that have produced such a change. All I could make out was that Manchester, Hamburg and French commercial travellers now come out to the Plate with their samples and orders, the same as formerly they infested every country town in Ireland, and to such a fine extreme have they carried out this competition, that the dealers here sell the goods by retail in their shops cheaper than the few surviving merchants sell wholesale at the store. Upon the tops of the fingers of one hand I can count all the English houses of Montevideo to-day, and at the rate things are going on soon these houses will have to open retail shops on their premises to move off the goods. The Manchester houses exporting to the Plate it appears will not or cannot pick up the goods in their own town as cheap as the agents of the Montevidean 'tendero,' hence it is that the trade is slipping from us: another instance of what I have over and over again maintained in Buenos Aires, that if English trade and influence there is so rapidly declining, the fault lies with the people at home not here. The Manchester people believe that outside the walls of Manchester there is no other world.

The Chambers are sitting here, and the usual humdrum, porous plaster system of legislation is going on, although the new Government enters with a heavy deficit and the schoolmasters are gone 4 months without their pay; the legislators to-day are receiving their pay for Feb., as also the city troops, the latter may be a necessity, but the former is certainly an extravagance, and somebody ought to introduce a law—'A 'articulo unico.'—So long as there is a deficit in the public treasury, no legislator shall receive pay.' I suppose as the salary is monthly the legislatvs session is perennial; the whole affair in a country like this reminds one of an untwisted wire rope, needing much energy on the part of the new men to 'lick into shape.' We want more political toughness with something of that insulating vitrefaction that secures the storage of power—there are too many valves, too many escapes, the country is rich, but the treasury is poor; the Orientals need more insulation to obtain results. If the cows in the Argentine Republic have dragged the country out of everything, the sea bathing at the Pocitos is the potential agent for Montevideo. I never saw anything to beat the afternoon tramways to the Pocitos, all the hotels are full, all the carriages in the plaza doing a roaring business. People who come from Buenos Aires spend too much money and cut altogether too grand a figure; if they were a little slower, it would be all the better for those who come at the tail end of the season, and who have very little money to spare—yet with all the traffic on the Pocitos tramway the shares of that company are selling at 4 per cent discount, and with the promise of 4 per cent dividend next month. All the papers here this morning are radiant with President Roca's telegram about the last roses of summer going up for the Exhibition. Over two hundred and fifty Oriental families, they say, go up next week to attend the inauguration. I tremble lest all will not be ready on the appointed day; another postponement and the Exhibition is undone.

RIO CUARTO.

(*From our own Correspondent*)

Thanks to the energy of Messrs Garmendia and Laforgue, the new market will soon be in working order, and when complete will be the finest construction of its kind in the Argentine Republic.

This market occupies an entire 'manzana' but is thrown back about fifteen yards from the ordinary street line, thus in addition to a wide footwalk, there is space for a special road all round, which will later on be planted with trees on both sides and will thus form a most agreeable promenade. Four sides of the 'manzana' form four rows of shops, fronting on to the street, divided at the four corners by large angular gateways; half of these shops are already finished and occupied, one being a cafe and billiard room, while Mr Brash, formerly of Buenos Aires, has a draper's shop at the far corner, others are occupied by saddlers, bootmakers, &c. Each shop is a house complete in itself, with courtyard, kitchen, office &c., and a water tap, which all lie behind the shop, quite secluded from either the street or the enclosed market.

These four blocks of building enclose an open space which forms the market proper. Roofs of corrugated iron supported on iron pillars, cover a wide brick pavement behind each block, where the stalls of the butchers, poulterers, fruiterers, green-grocers &c., will stand. In the centre of the enclosure a deep and capacious well has been sunk; over it stands a tower of brick work, on the summit of which is placed an iron water tank, constantly supplied by pumping from the well beneath.

From this tank pipes carry water at considerable pressure to all parts of the market, and to the shops, and there are special arrangements for watering the roadway both in and out of the inclosure. Around the water-tower a circular roof as yet incomplete will give shelter to another set of triangular market stalls.

A market such as this would be an ornament to a much more important city than Rio Cuarto, and Buenos Ayres may well take copy thereby. The ground has been granted to the market company by the Corporation for twenty one years, during which term the ground and buildings will be free from municipal impost of any kind. At the end of the twenty one years, the whole becomes the property of the Corporation. If Rio Cuarto continues to progress as it has done during the past four years, there can be no doubt that the company will amply recoup their outlay and earn a large profit in addition, before they cease to own the property they have created.

The new house building for Don Ambrosio Olmos in the main plaza is also in a forward state, but will not be ready before winter.

The late decree of the National Government concerning the powder-factory has caused great sensation here, and opinions are much divided. There is no doubt that the buildings blown down were defective, but who is to blame? The plans are

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

English, and were drawn out under the idea that English bricks and mortar were to be used South American bricks and mortar are a very different thing. The contractor ought to have known that with such materials as he could procure the walls were not thick enough, he simply carried out his instructions and considered himself blameless, and should he go to law with the Government about the matter, as it is reported he intends to do, he will apparently have a strong case to go with. Further it its stated that the Government has not fulfilled its part of the engagement. The contractor was to have been paid his outlay month by month as the work proceeded, but he has constantly been out of pocket, and has now no money left, he can't pay wages, men wont work unpaid, and everything is at a standstill. Perhaps it would be better for all concerned in the long run if they were to remain so, for wind and dust are not likely to be less in future than they have been, and until a forest of Itrees grow up all round, Santa Catalina will remain one of the worst possible sites for a powder factory in the whole Republic.

Meantime, in addition to the numerous engineers employed on this factory, a new one is shortly expected, a 'chemical engineer'—General De Burnes, late of the United States army, whose experience may possibly be of great value.

A joyful rumour has reached Rio Cuarto, to wit, that the surveyors of Clark's new line have pronounced the direct route from Mercedes to Mercedes impracticable, and recommend a divergence to the East, making Rio Cuarto the terminus. By this route the new line would be somewhat shorter than by the one proposed originally, but the journey from the Cuyo provinces to Buenos Aires would be somewhat longer.

All that now divides us from San Luis is the Rio Quinto, the temporary bridge over which has been washed away by a freshet, while the permanent bridge is not yet complete, so that the opening of this extension is still delayed. As the works proceed the pressure upon the rolling stock of the Andine Line becomes worse and worse. They have hired an engine from the Central at fifty pats a month, and nearly all the freight traffic is carried in Central wagons; they have only 7 wagons left for the ordinary service of the line, most short-sighted economy, and the idea of buying locomotives in France, which you announce to be on the way, does not seem much wiser. The plant here in the workshops is English, and not to mention the extra cost of French engines, the repairing of them when they get out of order will probably present difficulties as yet unthought of.

EDITOR'S TABLE

We have to thank both Committees of the Exhibition for sending us their respective cards of invitation for the inauguration to-morrow.

The rain on Sunday spoiled everything in the out-door amusement line, but did a world of good in all other respects, although it was by no means as general as could be wished. The Italian demonstration to Mazzini was not postponed. About 1000 people hurried down to Paseo de Julio and, after three speeches had been made, hurried home again. The railing of the statue was covered with beautiful flowers.

The Exhibition will be opened to-row, and a good job it will be as the public are heartily sick of the long delay. Let nobody imagine that the exhibits are all in their places, or the sections arranged. Nothing of the kind, but the inauguration will take place to-morrow 'ruat coelum' In about six weeks or two months time things may be in passable order for inspection.

Governor Roach's Message about the new Capital will be sent to the Legislature to-morrow, at least so 'on dit'. Why select to-morrow? Are not the Legislators to a man going to the inauguration of the Exhibition—if it does not rain?

The Stump affair was resuscitated yesterday, probably from scarcity of any better news. One rumour was that Mr Stump will take an action at law against one of the parties who claim from him, for falsely accusing him of swindling. Midshipman Easy's triangular duel was quite an intelligible affair compared with this.

Our Electric Light correspondents are putting on too much steam for our limited space. We received two more letters yesterday, but can only publish one of them to-day. Progress's letters have brought all the Electric Light men in and out of town down on him. Nothing like free discussion; but the gas men shake their heads and point to the 25 houses burned in Philadelphia and all the fine salmon from the Shannon and the Tweed turned bad in Billingsgate Market by the new light, which is also ruinous to ladies' complexions, giving them a sea-green look that prevents the men proposing.

We had the pleasure of a p.p.c. visit yesterday from the Revd. W H Shimield, the highly esteemed English clergyman, who left last night for Montevideo, to catch the Pacific steamer Valparaiso for old England. We wish him a pleasant voyage and speedy return to his good work and numerous friends in the River.

The President's decree declaring to-morrow a holiday 'for the public offices', for the inauguration of the Exhibition was published yesterday The wording of the decree induced some people who are foud of al work and no play to doubt if a general holiday is meant. We are most happy to say it is, and our readers need not expect to read the *Standard* in bed on Thursday morning.

The *Nacion* has telegrams from Pernambuco of 8th inst, with some news by the French Packet Niger Havas got his telegram about the American Representatives having passed a vote condemning the arrest of the Home Rulers upside down. What they voted was that President Arthur should ask the British government either to liberate or bring to trial at once the American citizens implicated in the Land agitation. Uncle Sam is still in the very worst humour about the Panama Canal. President Grevy of France offered his friendly mediation in the Clayton-Bulwer business, but it was refused at Washington, on the ground that the intervention, even in a friendly way, of a European Power in a purely American matter is not admissible. President G replied with true Gallic urbanity to this all but snub. What Downing street said is not stated.

Our London correspondent's description of the Club and ball in Æsthesia has procured us several enquiries for more information as to the British craze of the day, one correspondent stating that he considers the affair quite too unutterably delightful to last very long. We have a chapter ready with the whole history of it 'ab initio', but quien sabe' when we may have space to publish it. Meantime the following from an exchange is the immeasurably latest:—"The Apostle in Kneebreeches," as Mr Oscar Wilde has been called in some of the New York papers, is evidently doing great things. The latest sensation announced is the purchase of a pair of ponies, which he has named respectively Lily and Sunflower. The American Press is enthusiastic over the turnsout. The ponies are described as pre-Raphaelite and rhythmical; Hellenic in style, beauty, and pose. The phaeton, which is V shaped, and lined with silken cushions of the time of Louis Quatorze, hangs on low wheels of a bright sunflower yellow. The Æsthetic himself is considered worthy of mention, attired as he was in the costume of a barbaric Cossack from the Steppes of Tartary. The finishing touch is, however, the best. It is as follows: 'An aureola surrounded this Pagan ic equipage, and it was aurelian in its luminous glory."

A handsome young lady of Mercedes is about to enter the University and study for a medical diploma. Although we should not like to see ladies in general become 'Sawbones', politeness demands that we should wish them success when they do take the notion into their pretty heads.

The 'reglamento' for the Lottery is now all ready, and the first drawing will be very soon. Fortune's Temple will be at No. 32 Calle Moreno. The glass globes used will be those of the Credito Publico. The commission allowed to agents will be 6 per cent in the city and 8 per cent in camp and provinces. We wish everybody *Standard* luck in the new Lottery.

The San Francisco papers say that a man named Clancey has succeeded in flying a quarter of a mile there, with a machine which it has cost him 30 years to invent. A quarter of a mile in 30 years is not a very high speed, and Mr Clancey will still be in sight at the end of the next century, if the fate of Dedalus do not overtake him before then.

The Belgian papers announce that Prince Philip, King Leopold's brother, intends to come here to have a peep at the Exhibition. His Royal Highness is a great traveller and member of half the geographical Societies in the world. The numerous Belgian residents here will give H.R.H. a cordial welcome.

The 'oldest inhabitant' has been found at last. His name is Michael Sollo, and he lives in Bogota, Colombia: he was born in the year 1700.

We continue the report of the last meeting of the Southern Railway Board in London (see Supplement). It is of great interest to all who have the future of this country at heart.

The Horticultural people intend to compress all the weekly shows that should have been held from February 15th to March 15th into the display at the Exhibition to-morrow, so a decidedly good Flower Show at least may be expected.

We heard yesterday with mingled feelings that the Exhibition Committee have changed their mind and intend to give a free 'entrada' to every 'diario serio' in town. If so, the great majority of our colleagues may count on free tickets, as a more painfully serious lot of newspapers than those of Buenos Aires is not to be found under the moon. Will no man invent some anti-bilious ink for them?

Meyerbeer's grand opera of Robert le Diable was performed on Sunday night at the Colon Theatre to a very crowded house. It is a favourite all over the world. Though all the artists sang well, there was a certain coldness throughout which damped the whole performance. Now, as the same opera is to be repeated to-night, it is to be hoped some effort will be made to get up a little more animation, so as to interpret some of those beautiful love songs as the gifted author intended. The ballet is certainly not as good as we have seen in former times.

A New York editor, in his pride of place, thus alludes to his country cousins of the Pen. The weakness to which he alludes prevails in the camp and provinces here also.—"The reader of an ordinary country paper will remember painfully that the only variance of his monotony from time to time is the change of the presiding genius, who is called, by courtesy, editor while he is in possession of a caneless chair and a very dirty desk. When the country editor comes into office, he invariably prints a salutatory as long as a Presidential Message, and, when he forsakes the cathedra of his hierarchy, he indites a valedictory which, metaphorically, stretches from Portland, Or., to a shady nook in Devonshire, England. The salutatory and valedictory articles of country editors are a mixture of pleasure and pain to those who read them. We don't.'

Many distinguished Brazilian and other families have arrived for the Exhibition. Dr. Zavalla, Governor elect of Santa Fe, will be here next week. The hotel men are in splendid spirits, but are losing weight from overwork, night, noon and morning.

The Bolsa this morning wore a refreshed appearance after yesterday's rain, and business was forgotten discussing the opening of the Exhibition, declared a holiday, and the impending message of Governor Roca on the provincial capital. As very little is doing at the present moment on Change, no objections were raised by the brokers against the holiday measure; in fact business has been so limited on the Bolsa of late that the doors might have been closed every second day in the week. The Governor's Message is anxiously looked forward to by all, as everyone is more or less interested in the new provincial capital. The message and its discussion in the Chambers are no doubt the prelude to the departure of the provincial authorities from the city, but the final issue of the question is yet very far off, and it takes longer than many suppose to establish a capital. It took 70 years to make Buenos Aires the capital, under National jurisdiction, of the Confederation, and we may anticipate five years, a moderate period, before the Provincial Government of Buenos Aires emerges from the Calle Moreno into the deserted village of Tolosa. The great importance attached to the message arises from a general wish to finally and accurately know the conditions of the cession. People want to know the stipulations of the cession of the many Provincial Government buildings of the Calle Moreno Government House, of the Policia, Banks, Municipality, &c. These buildings represent a very large sum and the conditions of their transfer will be interesting, as of late rumours have been circulating that 25,000,000 pats is their minimum price. This would saddle a fresh and heavy debt on the National Government, and very many are unwilling to believe in the amount. Any way, in spite of assertions to the contrary, the National Government is at present in a very enviable position, but not so much as to be prepared for further obligations of so heavy a nature. This and many other reasons lead the public to believe that the settlement of the Capital Question is yet far off.

In gold this morning nothing was done at the ring; outside some small amounts changed hands. Buyers offer a premium of 1 cent, whilst sellers demand 2 cents. The difference is insignificant and gold is in reality at par. The operations are very small and there is in fact no market; gold has lost all its former interest on Change since it has become so cheap. The attention of the Bolsa is fixed on the paper money market and more especially discounts. Paper money has tightened slightly of late, and this naturally affects the whole market, since it deals in paper. It would be better to have cheap paper and dear gold, instead of the present state of affairs.

Cedulas to-day fell with the thermometer. The speculation in Series E is evidently not kept up, and many of the brokers, who last week would only operate in Cedulas now relinquish the scrip to enter the National Bank Share market. Series A is naturally somewhat affected by the weakness of Series E and operations were effected this morning at 10 ½; but these operations are so small that even a difference of 1 o/o in the price paid would amount to very little. In Series E the speculation fagged this morning and very little over $100,000 were sold. The market opened indifferently at 84½, fell to 84¼ and closed finally at 84½. The market, nevertheless, is pretty susceptible and any outsider entering the hall manages to drive up rates pretty fair y by purchases, that in a larger market would be entirely overlooked. Both Series are neglected.

The National Bank Share is again the lion of the market; the stock has resumed it position as a speculating paper. The bulls laugh at all the nonsenses talked about with reference to the restricted discounts of the Bank in this market. At all events the paucity of discounts of the Bank in the market is remarkable. The stock is firm and rose steadily 1 o/o during official hours. The rise is attributed to the entry of some who have to buy in order to cover sales for the end of the month, but the operations are limited to a very small number of shares circulating in the market outside the Italian's grip. The bears on the other hand assert that the bulls are driving up prices in order to sell, but the statement is not likely in view of the indifference and apathy evidenced by the holders of the shares; most of them look on and do not operate, leaving the market to the mercy of a few operators. The market opened at 123½, rose steadily and closed at 124¼. The stock is not very firm at its closing quotation, its susceptibility of late being well known to the market. As the 15th is a holiday we may look forward to dull business in all stocks between this and Friday.

The new National Government Bonds are expected out on the 16th, and it is stated in the market that bids are already being asked for same. These Bonds we think constitute the 1,000,000 pats. voted by Congress to pay the debt of Independence warriors, and have nothing to do with the new Treasury Bills. These Bonds it would appear are issued sooner than was expected in view of the repeated complaints of late, owing to suspension of all payments to the soldiers of Independence.

It was rumoured to-day and even positively asserted on the Bolsa that moratorias had been refused to a leading firm that failed lately. The matter led to much discussion on Change, and appears to be correct.

A cargo of pitch pine per Kandspick has been sold to arrive; the vessel comes from Brunswick; rates are reserved.

The rain this afternoon put a stop to all business, and most of the leading merchants were absent in consequence. The rain came down yesterday in torrents, and it looks probable that this rainy weather will continue.

In the Plaza this morning very little was done, owing to the rain. Furthermore, operations are curtailed, owing to the Havre wool auction that begins to-morrow. Some 7,000 bales of wool will be offered at this auction, and all devoutly hope that the prices will rise and effect a turn in the European market. We may expect telegrams on the 15th instant.

A cursory visit to the Exhibition will convince all that the inauguration of same will be a great success. The Argentine section is complete, so is Chile and Paraguay. Most of the sections are nearly ready. The Capital 'locale' will excite the admiration of all, owing to the good taste of arrangement and nature of the exhibits. The machinery in the agricultural department is complete, and the English section is attractive. The Fives Lilles sugar machinery is simply splendid and will attract general attention.

The sales at the ring were as follows:—
Gold—
Without operation.
Cedulas—
For cash A 3,000 at 100¼
For cash E 2,500 at 84½
For March 31st E 100,000 84¼-½-¾
Sales, 105,500.
Nat. Bank Shares—
For cash 20 shares 123½
For March 31st 3,700 shares 122½-122¾-124-¼
Sales, 3,720.

The National transport Villarino left Bahia Blanca yesterday at noon and is expected to anchor in the Riachuelo to-morrow evening. The Villarino this time has made a quick passage, and General Villegas will arrive in the nick of time for the inauguration of the Exhibition.

The Provincial Bank discounted to-day five millions of dollars; no gold discounted.

Some Montevidean exchange was done to-day at ¾ o/o prem; on London rates nominal at 49½ d.

Discounts in the market are no longer as easy as last week; rates 8 o/o paper and 7 o/o gold.

Dr Irigoyen's estancia Las Mercedes, in the Province of Sta. Fe, has been purchased by Mr F Ortiz at the rate of 45,000 pats gold per league. This estancia is well known in Santa Fe and well situated. The price per league shews eloquently what the Italian colonists are doing with the plough and threshing machine. Before many years have elapsed good lands of estancia in Sta. Fe will be as dear as the inside camps of the Province of B. Aires. Messrs Sewell Bros, of the same Province, it is reported have sold 3 leagues in Tortugas at the rate of 6,600 pats per league.

Three square leagues of land have been sold in Melincue for 30,500 Bolivian dollars. Seller Mr Z Pereira, buyer Mr M Torres.

10,000 pats gold were sold this evening at 25 15 for end of April; also a sale for end of August at 26.25.

About 5,000 ar. of wool arrived in the Plaza. Once this morning; all the "pasto fuerte" qualities sold at prices between 88 and 93 m/c.

The Pascal comes up to-night; she sails on the 21st.

Our Boca correspondent gives the following:—

"The American barque Sarmiento, Captain Gould, goes to barraca Balcarce to-morrow to load for the U. States.

"The Italian gunboat Scylla arrived in our port yesterday, and is lying almost opposite the Resguardo."

Six square leagues of land have been sold in Melincue at the rate of $f 8,000 gold per league. Mr J Ortiz seller, Messrs Cichero & Co. buyer. The land business seems to be in full activity in Santa Fe and on its frontiers. Here there are very few signs of a revival.

The fine German steamer Hohenzollern has arrived in Montevideo.

Cablegrams from Montevideo announce the sale of 100 bordalesas of tallow of the Panlet establishment at 18½ rls.

The brick-kilns of Chascomus have received orders for 1,000,000 bricks for the Southern Railway; they are intended for the Bahia Blanca extension.

There are contradictory reports on 'Change as to the issue of National Government Treasury Bills. One party was reported to have offered $f 20,000 on the Bolsa to-day; on the other hand we hear on the very best authority that the Minister of Finance has issued no bills as yet nor will he do so for some time. On the other hand it was stated that another party had offered $f 200,000 of the new Independencia Debt of the $f 1,000,000 issued.

A sale of camp, comprising 8 square leagues and a fraction of ⅜ of a league, is reported, near the Bunchales colony, for the round amount of $f55,000. Mr L Guerra seller, Mr Z Pereira buyer.

At afterhours some gold was sold for cash at 25.01; in Cedulas a few operations were effected in Serie E at 84½ for the end of the month, and in Series A at 100¼ for cash. In National Bank Shares there was a weaker feeling owing to a well-known operator selling out; prices ruled slightly flatter, but not much so. About 1100 Shares were sold for the end of the month at 124½ and 124; the market closed at the latter rate.

The Dalton sails on the 21st for Antwerp and Liverpool direct.

Freights are rather dull at the present, but in Montevideo business in shipping is duller still. Rates are at 25 and 10 per cent.

The Sales at afterhours were—

The splendid Dorrego palace of the Calle 25 de Mayo has been bought by Mr Gregorio Torres for the amount of 2,900,000 m/c. It is one of the finest building in this city and cost the owner probably over 5,000,000 m/c. At the rate city property is improving it be will worth its original cost before many years.

The number of new houses in construction in the city is simply astonishing; proprietors are now intent on erecting Genoese palaces. Mr Devotto's magnificent site at the corner of Rivadavia and Florida is advancing quickly; the new Carabassa Bank will be completed before long, and Mr Leloir's very large building at the corner of Piedad and Florida promises to be one of the finest mansions in the River Plate; since the Calle Rivadavia above Lores has been paved the old houses are being pulled down and new ones erected.

The Herold sailed with the following cargo:
1,836 bales of wool
1,233 dry hides
3,755 bags of linseed.
Amer. barque Celina is reported cleared for Boston with 31,700 dry ox hides, 4,668 hogskins and sundry cargo.
The Gassendi left with—
3,000 bags of linseed
600 bales wool
6,200 dry hides
3,319 packages minerals.
The Sud America took:—
5,210 dry hides
1,040 bags of maize
50 pipes tallow
200 bordalesas tallow
894 bales wool.
The Teniers left with the following cargo:
10,200 salted hides
796 dry horse hides
876 dry ox hides
761 bales wool.
15 horses.

Advices from Montevideo state that the Santa Maria Saladero will soon suspend the faena, owing to the wretched condition of the novillos.

The graserias are expected to begin working this month in this Province. In view of the immense increase of sheep it is to be expected that the animals will be bought cheap.

At the amortization of the Deuda Amortizable in the Montevidean Public Credit Office two bids were forged; the fact gave rise to very many rumours on the Montevidean Bolsa. The two bids in question were naturally not amortized, and the Government must now enter the market for the bids in question at higher rates, as the stock improved in the meantime.

The failure of the Verragaud Bank of Credito Real Mixto is confirmed. When we stated the fact some time ago, it was flatly contradicted in Montevideo in a communication to the *Halo Electrico*, Now we can see how the contradiction arose from feelings and wishes that were father to the thought, there was never the slightest chance of ever launching the concern, and our London advices always stated so. It is one of the many schemes, doomed to oblivion in the waste-paper basket.

The budget of expenses to pave the Calles Entre Rios and Callao amounts to 4,210,000 m/c. The paving of this boulevard will bring on a begira from the populous centres outwards. The idea is a splendid one; and the city could not ask for a finer boulevard. It will be the boulevard Hausseman of Buenos Aires.

A telegram from Rio reports exchange at 21 1-16 d. £ at 10$600

The Olavarria colonists have now 1,750 squares of land under maize; the crop promises to be splendid. The wheat harvest of last year amounted to over 40,000 fanegas.

Mr White, chief of the Engineer Department arrived yesterday from the Interior. He inspected the national railways and their extensions.

The Spanish lugger Josefa is reported cleared in Montevideo for Havannah with 172,000 kilos of jerked beef.

3,000 fine sheep in Bragado reported sold at 40 m/c; Mr Maximo Fernandez seller.

5,000 fine sheep in Bragado at 28-30 m/c; buyer Mr J L Somoza.

The Western Railway Board has reduced the passenger rates during the Exhibition period 25 o/o; the Board is liberal, it also made some time ago a reduction of 50 o/o on the freight of exhibits.

The shareholders of the Argentine Gas Co. are requested to attend the meeting on the 27th instant at Calle Rivadavia No. 410 at 2 p.m. The accounts of this flourishing establishment will be submitted to their study and inspection.

The following sales of real estate were registered yesterday in the National escribania:
Calle Corrientes No. 1,037, 8:660x25:980 mts, for 1,750 pats.
Calle San Juan No. 199, 71:676x44:176 mts, for 400 pats. (Only one part of the owners.)
Calle Corrientes No. 525, 779x14:94 mts, for 2,120 pats.
Calle Callao No. 62, 7:14x14:72 mts., for 2,880 pats.
Calle Mejico No. 599, 7:57x37:67 mts., for 8,000 pats.
Calle Sta. Fe between Calle Ministro Ingles and Calle Nueva, 8:66x43:30 mts, 688 pats.
Calle 3 de Catamarca corner Calle Bermejo, 12;99x25:980 mts., for 1,220 pats.
Lincoln—4,456 square hectareas for 12,000 pats and 92 centavos.

Messrs Lochore & Samson have received lately some standard samples of Russian flax, each with the price per ton. They will be of great service to the cultivators of flax here to enable them to arrive at an approximate estimate of the value of their products, and Messrs Lochore & Samson will have much pleasure in showing the samples to interested parties.

We take from Messrs John Beckwith & Co's prices current the following, under date Liverpool, 7th Feb. 1882:—

"The arrivals during the past month have been the S.S. "Maskelyne," S.S. "Archimedes," and S S. "Horrox," from Buenos Aires &c., with Hides, Hair, Sheep Skins, &c.; the "Broderstrow," from Rio Grande with Hides and Horns; the "Predico Agosta," from B. Aires, with Bones and Bone Ash, and the "Kepha," from Beyrout, with Bones.

"Salted and River Plate and Rio Grande Hides—

Import, 1,365 River Plate, in great part received from the Continent, and taken direct into consumption, and 6,183 Rio Grande. The market has ruled very quiet and tanners are disposed to act with extreme caution. Some slight disposition on the part of holders to accept the situation led to the sale of 6,500 heavy Uruguay and Fray Bentos Ox at a price said to be equal to about 7d. with accustomed tares, and afterwards a small parcel of Light Oxwas placed at 6¾d., a decided concession. Beyond these transactions the sales have been of little importance. The Rio Grande Cargo, per 'Broderstrow,' [Thomsen's shipment], was sold in the early part of the month at 6½ d heavy and 6d. light, a decline of about ¼ d per lb., and afterwards the same prices were offered and refused for the "Johannes," still at sea.

"So far nothing has been done for arrival, either in River Plate or Rio Grande cargoes, of Liebig's which were taken at 77 fcs. for heavy, and 72 fcs. for light, Though the stocks have been unusually low, operations have been conducted with much caution, and the trade has evidently been purchasing, merely to satisfy any pressing requirements.

"The Continental markets have offered little of interest beyond the sale in Antwerp of the first two cargoes of Liebig's, which were taken at 77 fcs. for heavy, and 72 fcs. for light. Though the stocks have been unusually low, operations have been conducted with much caution, and the trade has evidently been purchasing, merely to satisfy any pressing requirements.

"The year opened with an improved demand for Leather, but inquiries gradually fell off and sales, especially of heavy sole, no doubt in some part attributable to the dry weather, have been limited, prices ruling rather in favor of buyers. On the whole, however, a fair business has resulted and prospects appear to point to a more satisfactory future.

"Sales, 8,387 R. Plate ox hides.

"Fray Bantos and Guaviyu ox, 6½ to 6¾ lbs, on private terms.

"Casa Blanca ox, 52½ lbs., at 6½d per lb., tare 4 lbs.

"6,033 Rio Grande heavy ox hides at 6½d per lb., tare 6 lbs.

"Light ox at 6d, tare 5 lbs.

"Landing weights ex quay.

"The present stock consists of 15,246 hides, viz:—

River Plate heavy ox,	12,559	
Do light ox,	2,529	
Do cow,	8

Of delicious flavor and great strength; consumers will find that a first rate cup of tea can be brewed with half the quantity required by the more ordinary Teas, its use is consequently a saving.

MESSRS. GEORGE & JOHN C. BELL in calling attention to the above list of
FINE NEW SEASON'S TEAS
can confidently recommend them for their superior quality and convenient condition it being a well known fact that Tea packed in tins retains its strength and flavor for a much longer time than when in Boxes.

Venderemos al mejor precio, al contado y sin retirar lote las 30 hermosas yeguas a que nos referimos; respecto de las que solo decimos (haciendo su mejor elogio) que son propiedad del famoso Stud Las Barrancas del senor Don Patricio Reid, regenteado por el senor Don Diego Church.
Los animales que hoy ofrecemos debieron ser vendidos en el gran remate del Stud, no pudiendo hacerse asi por razon de la lluvia que desgraciadamente interrumpio la operacion
Al anunciarlos hoy, llamamos la atencion de los aficionados a buen sangre en animales de carrera; y muy especialmente a todos los Sres criadores que deseen poseer los mas lindos animales que existen en el Rio de la Plata.
Las yeguas son todas ellas preñadas y con cria al pie y han sido servidas por los famosos padrillos del Stud Sutherland y Young Fritz.

On Wednesday, March 22d.
At 3 p. m.
At our mart San Martin 51, we will sell to the highest bidder (on above conditions) this splendid camp situated only 13 leagues from the town and surrounded with important establishments.
The camp which we offer for sale is only 5 leagues distant from the line of railway to Bahia Blanca, and is known and reputed to be covered with good class of pasture, the greatest part of it, tender grass; There are also several lakes of permanent sweet water on the land.
The conditions of sale are very advantageous with regards to payment, and for this reason we beg to call the attention of speculators in camp to this sale.
The buyer can take over 8 Bills due to Government, $186,680, i. e. $23,335 each.
The land laws allow the postponement of payment for one year on payment of 1 per cent per month interest.

AT OUR MART
51—San Martin—51
We will sell to the highest bidder over and above the stipulated basis, for cash, ¾ league of splendid camp, in the department of San Justo, (Province of Cordoba). Advices we have received about the above camp are most flattering—so let those who wish to secure good land cheap, look alive.
The shape of the lot, its rich pastures, and the liberal conditions on which it is offered for sale (in one or more lots), place it within reach of agriculturists, who require small lots of excellent land.
The low valuation put on this land compared with the prices obtained by the Government, 3,000 pats, is the best recommendation we can offer.

'Bayard' y 'Municipal' de sangre puro fueron introducidos al pais por la compañia, comprados en el castillo 'Mille Secousse' cerca de Burdeos, *Presidente* tambien puro nacio en el establecimiento 'Matanzas' arriba mencionado.
Cremos inutil entrar en mayores detalles sobre la cria Percheron que es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentra en ninguno otra.
Tenemos una prueba de ellos en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del Sr. Cambaceres, unico criador de la raza que ha espedido hasta ahora sus productos al publico.
La Compañia del Tramway hasta la fecha habia unicamente espuestos sus crias en varias espsociones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que lo hace, tienen los criadores una brillante ocasion para hacerse de animales de primer orden.
Los caballos y yeguas pueden verse en las caballerizas de la compañia en las 5 Esquinas y dos dias antes del remate en nuestra casa Alsina 78.

SOUTHERN RAILWAY MEETING

Continued.

The Secretary—This is a letter received by the chairman from a gentleman very well known to him in the South. He writes as follows: "I have had the pleasure of receiving your letter, and deplore not having found you at home the evening before I left for Azul. I would have delayed my departure on purpose to see you, but was unable to do so on account of business here which did not admit of delay. By your letter I see you wish for information about the Southern districts, and although I shall be very happy to give you all the assistance in my power, it would not be amiss for you to illustrate it by a little personal observation, for I am sure you can have no idea of the importance the Southern camps are attaining. Three years ago, outside of a radius of nine leagues from Olavarria, it was nearly a howling wilderness, when at the present moment it is becoming so rapidly populated that in a very short time it will have no reason to envy the inside districts in that respect. The number of important estancias, a great many of them of English owners who have flocked to this side of the province attracted by the superb nature of these camps and their luxuriant pasture, is truly surprising. The stock introduced within the last three years will enable you to form an idea of the brilliant future that awaits this part of the province, and although it is impossible to give you a correct statistic of the number of animals existing, as you may say that thousands pass monthly outside from all parts of the province, notwithstanding, I may state, that in this short period there are over one million sheep and four or five hundred thousand head of cattle introduced. Now, in an agricultural sense, this district is also progressing rapidly; for example the Valley of Olavarria, where up to the present most wheat has been sown, has given magnificent results, and this year there are many square leagues under cultivation, which will produce at least over a hundred thousand fanegas, which is not bad considering that three years ago there was not enough wheat grown for consumption. While on the subject of Olavarria, I may also mention its marble quarries, which have already obtained no little importance, and only require transport facilities to compete with the European article. I leave it to yourself to judge what the future of this district will be, once a line of railway is established, when, without any facilities for transport and under every disadvantage, it has made such wonderful progress in such a short time, and I have no doubt that the result of the line will be as favourable to the Company as to the district. I am sure that if you were to pay us a visit, the personal observation of a man of your discrimination would give you a more perfect idea than any information I can supply. On the 13th. I am going to my estancia, 20 leagues from the Azul, where I would have the greatest pleasure in seeing you in case you make up your mind to come, which I hope you will. If I am not here, you might apply to Mr Brown, of that town, who will accompany you if you let him know with a little anticipation the day of your arrival. The trip is a pleasant one, and only ten hours in a carriage, and even this time would not be lost, as it gives you an opportunity of seeing the agricultural district of Olavarria, through which the road lies, and which I suppose would be the probable route of the first extension towards Bahia Blanca.'

The Chairman—With regard to that letter, I may say it came from a very reliable source, and I do not think that there is anything exaggerated in it; and the secretary, who has recently visited the country, can affirm nearly all that you have heard stated. There is one other letter which the secretary will read.

The Secretary—This is an extract from a letter received by the Chairman from a gentleman in B. Aires within the past few days. He says: 'The country from Azul to Curumalan is very fertile, and is rapidly filling up with sheep and cattle. You can assure the Shareholders that this section of the railway will pay as well as any other from the first. The amount of fencing and building material required is simply enormous, and the carrying power of the line will be severely taxed.'

The Chairman—There is only one other letter to which I need refer, which has been received from Mr Woodgate. Many of you know that gentleman as an authority on shipping business in Buenos Aires, and I daresay he is somewhat interested in the prosperity of our railway. The great advantage which we shall derive, I think, will be in having a port at both ends of our line, and to remove any doubt as to the character of that port, apart from all the personal observations of our engineer and others, I will read this letter to you—'Any steamer which can pass from Montevideo to Buenos Aires will have more than sufficient water at Bahia Blanca. The soundings of the bay having been given by my brother to Mr Cooper up to where a mole should be built for discharging material, Victorica has had the pontoon moored as suggested by Captain Chaudy; therefore, any steamer of 20 to 21 feet draught can safely be chartered to take cargo to Bahia Blanca and then return to Buenos Aires in ballast. There will be no difficulty in getting steamers for railway materials to the new port.' I think that is a very satisfactory statement, and coming from the source it does it gives us satisfactory information as regards the character of the district, which will give us some assurance in future. With regard to the mode of raising the capital, you have before you in the circular or in the report of the Directors a distinct statement which is embodied in the resolutions. You will see that we ask you to increase our capital to the extent of two millions—one million in share capital will bear 6 per cent. interest for more than three years, for one year after the opening. We calculate upon finishing the line in 2½ years, and that will give the old line more than three years before it will be burdened with its full share of the dividends of the new line. Therefore the new capital will not be affected for some years to come. During that time I consider there will be sufficient movement in the population and increase in everything to afford us every assurance that we shall not reduce our dividends at the end of that time. We also ask you to increase the debenture stock by issuing one million of 5 per cent stock. That will be an increase of the capital of £2,000,000 altogether; it will not all be required for the constructing of the line, and it will give us capital for what is necessary from time to time. You will also see that we propose to exchange the 6 0|0 debentures and to convert them into 5 0|0. That is done for the sake of convenience, and it will be issued on the condition that it shall be irredeemable, except on the winding up of the Company, a contingency which is too remote for anybody to take into consideration; it is a convenience to the holders and has been generally accepted by everybody. I do not think I have anything further to say except to allude to the explanations which you have before you in the report, though I think it would be right before I conclude to recognise the kindness and goodwill which both myself and the Secretary received in Buenos Aires from our friends and the public generally. Although there was some little spirit shown against the Company at the time, I think our presence was useful there, and we received all the attention and facility for carrying on our business that we could expect. I have also to recognise on the part of the Government the greatest courtesy, and to thank them for the facility with which I was enabled to hold intercourse with them, and I am sure that we have now established there a basis of good will which will improve our position and popularity generally. I think, gentlemen, in every respect our property has derived that advantage from the mission of your humble servant and the secretary—(applause). Gentlemen, I now beg to move 'that the report of the Board of Directors, dated the 17th January 1882, now read be approved and adopted.' I may say that our deputy chairman has been unavoidably detained, been carried off in fact for a special jury; he has been obliged to attend to that instead of to his duties here, and I dare say very much against his will. If he were here I am sure he would have supported the report now before you; but in his absence I will ask Mr Drabble to second the motion.

ELECTRIC LIGHT *versus* GAS.

Dear *Standard*,

After all the nonsense published about the danger of electric lighting, it is rather refreshing to read the article on that subject in the *Electrician* of London of the 28th of January.

We give you herewith the chief points:—

As a matter of fact, there is no more danger in lighting by electricity than in lighting by gas or mineral oil. Electricians would say not so much, and probably they are right. We have grown so familiar with gas, and manipulate it with such confident fingers, that we have almost forgotten that there are any risks attached to it, the true explanation, however, being that we forget the danger by habitually remembering the precautions. But this was by no means the case in the early days of gas-lighting—explosions were not unfrequent, and many a conflagration has been traceable—is still traceable—to an unnoticed escape of the inflammable mixture. The use of explosive mineral oil for domestic purposes must be classed amongst still more hazardous risks; yet it is notorious that the consumption of paraffin as an illuminator is enormous, and this especially amongst the most ignorant and careless portion of the community. The precautions here are of the flimsiest description, and when we remember that the chief protection against an outburst of flame—a flame, too, very difficult to extinguish—is a bit of frail glass or an ill-fitting screw—the wonder is that paraffin lamps are ever admitted inside an inhabited house. But the most reckless of men, and the clumsiest of women, have learned to employ this homely and economical light with perfect confidence and safety. There is risk, but the danger has practically disappeared.

There are two classes of articles which are excusable in the first trials of a new and unfamiliar undertaking: the one due to the ignorance of the workman, the other to some detail overlooked or not foreseen by the master. Both these elements of danger entirely disappear after a little while. Wires are handled with impunity, because the conditions of safety are well known, and fire is prevented, because the places of outbreak are duly protected.

The nature and extent of the protection needful, in the case of wires charged with powerful currents, are perfectly well known to every competent person, and any company taking upon itself the task of laying down such wires would, we need hardly say, incur grave responsibility if thoroughly competent persons are not engaged to superintend the work.

The electric light is in its infancy, and if all due precautions have not been taken in respect to it, this may be a subject of regret, but it is by no means one for alarm or discouragement.

Yours truly,

P. F.

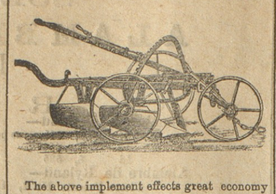
HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.

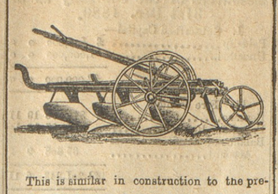


The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

With steel breasts.....
With steel breasts butwithout coulters
Weight 4½ cwt.

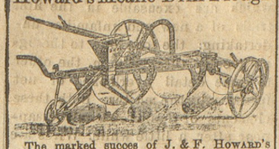
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

With steel breasts.....
With steel breasts but without coulters.....
Weight 5½ cwt.

Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

With steel breasts.....
With steel breasts but without coulters .....
Weigth 6½ cwt.
Maize Drill, £1 15s. extra.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he sett'es in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (a)

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender ye require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.

Presta sobre hipoteca con reembolso a largos plazos.

Por el valor del prestamo da cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f. 2000 ni el prestamo menos de $f. 500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una annualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado a amortizarlo, y de la comision del Banco. La annualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco, El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa, y espresando el mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las rentas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Julio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco Hipotecario recibe sus Cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una Cedula de $f. 50 que es el minimum de las que emite el Establecimiento.
